

## **ALTICE USA ANNOUNCES BASTROP BECOMES A SUDDENLINK GIG CITY**

***Other Suddenlink Internet Speeds Have Been Automatically Increased***

**BASTROP, LA.** (Feb. 09, 2017) – Altice USA announced today that it is now offering Suddenlink internet service with an up to 1 Gigabit per second download speed in Bastrop, Louisiana. The company also announced today that it has automatically increased certain other Suddenlink residential internet speeds for existing customers.

“Suddenlink’s new Gigabit internet service brings the fastest internet to our community, putting us on the same level as any of the largest metropolitan cities in the nation,” said Arthur E. Jones, Mayor of Bastrop. “This upgrade is just another example of the great quality of life in our community.”

“Today’s announcement is the next step in our Operation GigaSpeed initiative,” said Altice USA Co-President and Chief Operating Officer Hakim Boubazine. “In sharp contrast to other large providers, which are offering a Gigabit service primarily to a few neighborhoods in large urban markets, we’re pleased to be making our Suddenlink Gigabit service available in all of the neighborhoods and to all of the households and businesses we serve throughout Bastrop.”

Boubazine added that local business owners also will have access to the new Gigabit service, along with Suddenlink customized services the company offers that are capable of multi-Gigabit speeds.

In addition to launching the 1 Gigabit internet service, residential high-speed internet customers with current download speeds up to 75 and 100 Megabits per second (Mbps) have been automatically moved to services with download speeds up to 100 and 200 Mbps, respectively. The standard Suddenlink residential internet download speeds in Bastrop are now up to 50, 100, 200, and 400 Mbps, along with the up to 1 Gig service.

More information about local Suddenlink high-speed internet services is available at [www.suddenlink.com](http://www.suddenlink.com), at Suddenlink’s local Bastrop store at 1611 Park Loop Drive or by calling toll-free at 888-822-5151.
