

Summer of STEM in Texas

National Inventors Hall of Fame: Camp Invention

This is a nonprofit summer enrichment program, inspired by National Inventors Hall of Fame® (NIHF) Inductees — our world-changing inventors. Camp Invention® is a nationally acclaimed summer program where STEM concepts come to life. Led by local teachers, this program has tapped into kids' natural curiosity since 1990, giving them the opportunity to become innovators through teamwork and immersive, hands-on creative problem-solving. With the 2019, "Supercharged" program, campers will take on four exciting challenges, including Innovation Force, Deep Sea Mystery, Farm Tech, and the DIY orbit. Campers will be able to meet innovation superheroes and bring home newfound confidence.

- Georgetown, TX: 6/10-6/13
- Pflugerville, TX: 6/10-6/13
- Bryan, TX: 6/17-6/20

SFA University STEM Center: STEM Camp

The Investigations in Mathematics and Science Academy is an interactive learning experience for students entering sixth-eighth grade. IMAS challenges and inspires students mathematically and scientifically through real life learning investigations guided by SFA STEM faculty members and district master teachers.

- Nacogdoches, TX: 6/17-6/21

Texas A&M Chemistry Road Show

We'll be sponsoring two sessions of the Texas A&M Chemistry Road Show, a program that aims to entertain and educate students using chemistry. Students will be able to see chemical wonders and demonstrations turn ordinary objects and events into exciting learning experiences.

- Bryan, TX: 7/13

The Guadalupe Park Center Summer Bash

The Guadalupe Parkway Center Serves underprivileged & at-risk youth in the Lubbock area. Their Summer Bash is an 8-week STEM focused program serving approximately 160 students in the Lubbock area. Suddenlink is the exclusive sponsor of the program & our donation will go directly towards materials for STEM-related exercises throughout the summer. Students will also be provided with information about Altice Advantage, our low-cost Internet option.

- Lubbock, TX: July TBD

Kidz Science Safari

Kidz Science Safari consists of a minimum of 12 interactive exhibits that can be set up in schools. After a brief explanation of all the exhibits, students will be allowed to freely explore the museum throughout a 45-minute session, learning by true hands-on immersion.

- Bryan, TX: July TBD

Little STEM Jacks

Little STEM Jacks is a summer camp for children entering kindergarten through fifth grade and is provided by the STEM Research and Learning Center at SFA University. Children will have the opportunity to explore and engage in hands-on learning activities related to STEM, including an egg drop, engineering design, computer science, exploring the galaxy, wiggle bots, and more!

- Nacogdoches, TX: July TBD
